Qwik Lock™ Filter Fastening System –  
Makes installing or removing your filter  
quick, easy and secure.

Locking tabs secure connection between wands and accessories during use.

Hose storage keeps both hoses neatly stored when not in use.

Easy access power switch for quick operation.

Two Hoses Included –

- 1 7/8" Locking Hose – Length expands from 2'-7'.
- 1 7/8" x 14' Locking Hose – Won't pull out of vac until released.

Easy to install bracket mounts vac to the wall. Use while attached or release to carry vac with you as needed.

**20' / 6M**

Cord wrap on back of vac

Top carrying handle provides easy transport.

Blowing port for added versatility

On-board accessory storage bin keeps accessories close at hand.

Tough, copolymer drum resists dents and cracks, will not rust.

WORKSHOPbrand

Real-world performance data achieved from testing at the end of the hose. Competitors typically test at or near motor. Gallons indicated reflect drum volume, not necessarily collection capacity. Actual capacity dependent upon type of debris collected, condition of filter, and other factors. Peak Horsepower represents a level at or below the maximum horsepower output of an electric motor tested in a laboratory using a dynamometer. All details subject to change without notice.
